Work health and safety responsibilities

Sometimes a care recipient's home environment can present challenges to work health and safety and if this occurs, we will assess and monitor risks to ensure the safety of everyone in the environment.

Any assessed risks will be actioned prior to the commencement of services and care recipients will be consulted about any new risks that become evident during service. Should an unsafe home environment be identified, Home Care Workers are required to contact their Area Coordinator for advice and assistance and should attempt to control the risk, if possible and safe to do so, until further corrective action can be taken.
